

IAS 9.0

Post-Event Analytics Report

Ife Accounting Summit 9.0

June 16–17, 2026 | Oduduwa Hall, OAU, Ile-Ife

Organised by NUASA, Obafemi Awolowo University

Event Overview

Background, scope, and context of IAS 9.0

Event

Ife Accounting Summit 9.0 (IAS 9.0)

Organised by

NUASA, Obafemi Awolowo University, Ile-Ife

Date

June 16–17, 2026 (Tuesday & Wednesday)

Venue

Oduduwa Hall, OAU, Ile-Ife, Osun State

Head of Registration

Fasanya Segun Anuoluwa

Sponsors

Meristem, Zedcrest Wealth, Bvndle, Itel Energy, Nairametrics etc.

What is IAS?

The Ife Accounting Summit is an annual professional event bringing together accounting and finance students, industry professionals, and academic leaders for insights, networking, and career development.

IAS 9.0 was one of the largest edition to date, setting new records in registrations, attendance, and cross-faculty reach.

Executive Summary

Key numbers from IAS 9.0 at a glance

2,002

Total Registrations

Across pre-reg & on-site

1,034

Day 1 Attendees

June 16, 2026

1,397

Day 2 Attendees

June 17, 2026

665

Both Days

Cert eligible

609

Certs Sent

91.6% delivery rate

64%

Retention Rate

Day 1 → Day 2

67.3%

Walk-in Rate

Registered on-site

236

No Shows

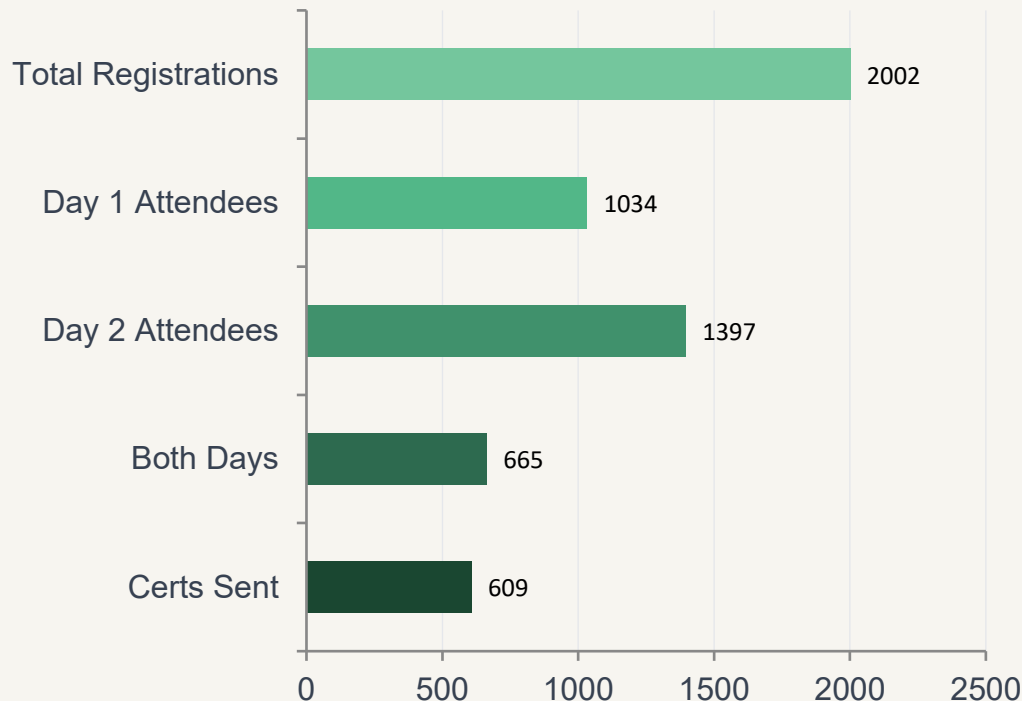

Registered, didn't attend

Attendance Insights

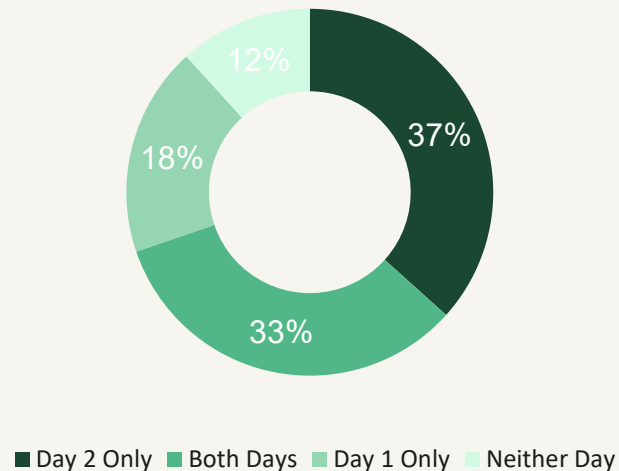

How registrants engaged across the two-day event

IAS 9.0 Attendance Funnel

Attendance Category Split

How Registrants Heard About IAS 9.0

Registration Channel Split

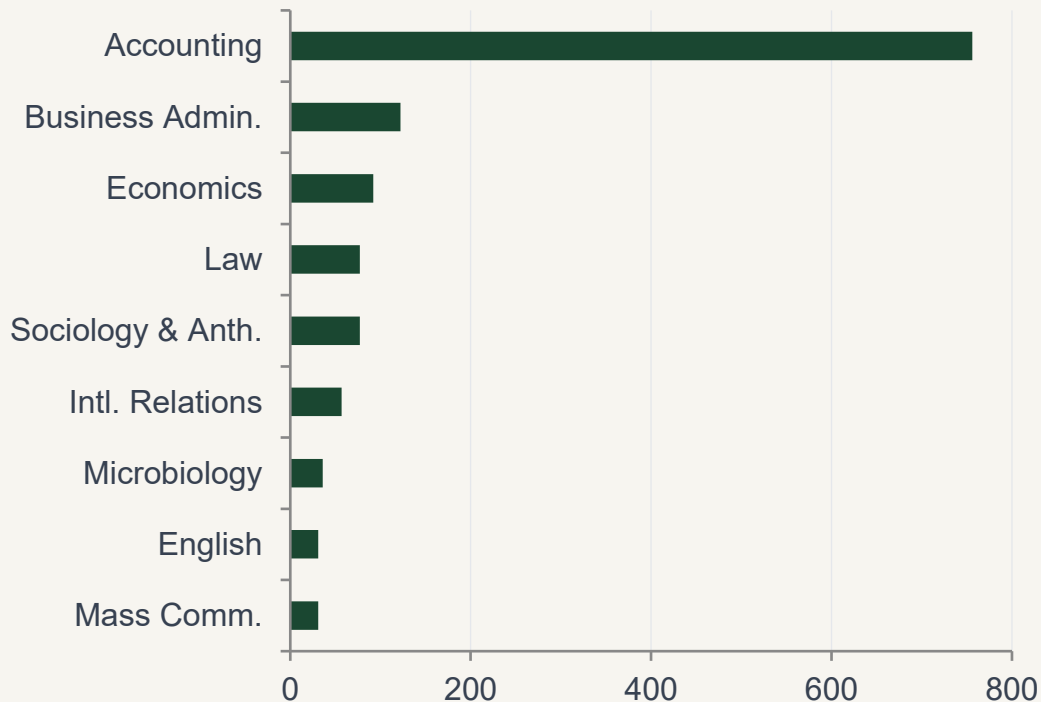

Key Insight

67.3% of attendees registered on-site on event day showing strong ground-level buzz but limited advance reach.

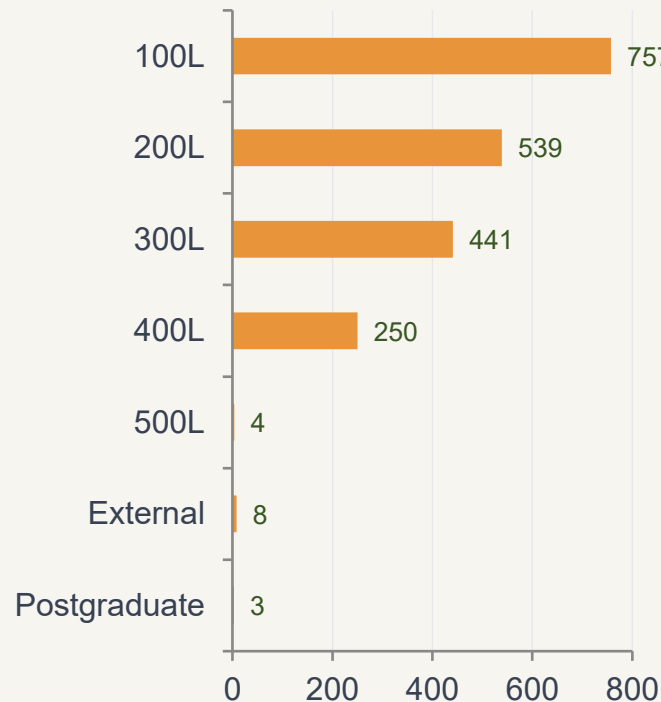

Demographics & Reach

Who attended IAS 9.0 and where they came from

Total Registrations by Department (Top 9)

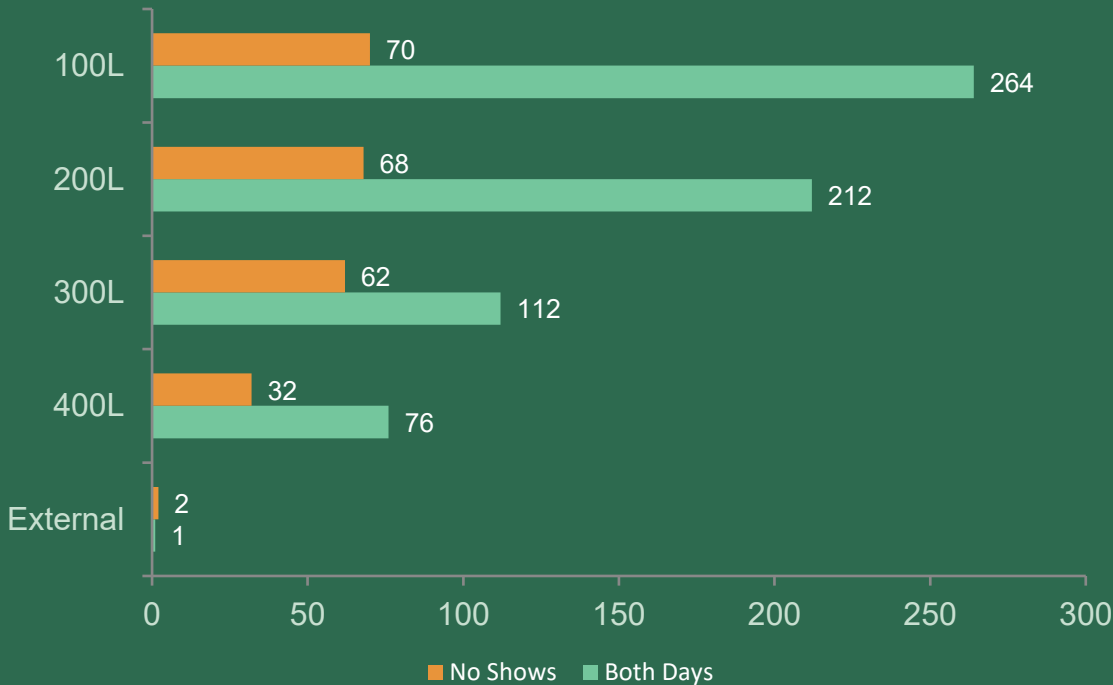

Registration by Academic Level

Commitment & Retention

Which levels showed the strongest commitment to both days

Both Days vs No Shows by Academic Level

264

100L students attended both days which is the highest of all levels

64.2%

Overall retention rate from Day 1 to Day 2

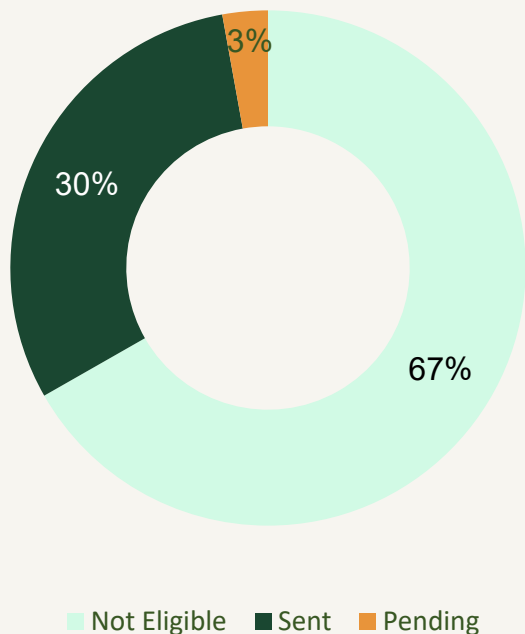

91.5%

Certificate delivery rate among eligible attendees

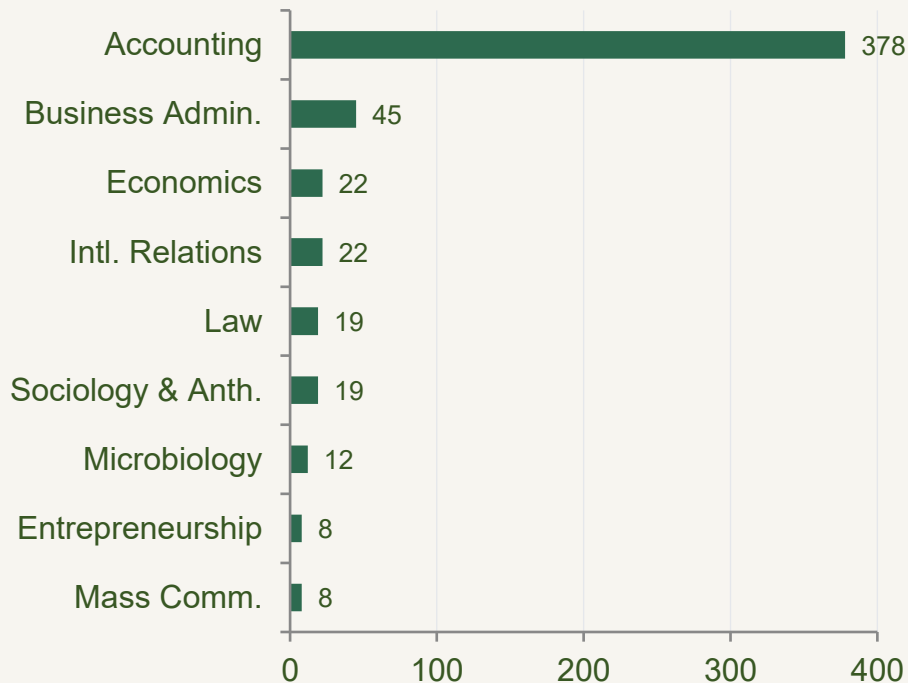

Certificate Delivery

Status of certificate dispatch to eligible attendees

Certificate Delivery Status

Cert-Eligible Attendees by Department

Key Takeaways

The most important findings from IAS 9.0

01 Record-Breaking Registration

2,002 total registrations which is one of the largest in IAS history, demonstrating massive growth in brand awareness and student engagement.

03 Strong Two-Day Retention

64.2% of Day 1 attendees returned for Day 2, an excellent retention rate for a two-day student event, showing high satisfaction and value delivery.

05 100L Students Most Engaged

First-year students led all levels with 757 registrations and 264 both-day attendees which is a critical audience to retain and build loyalty with for future editions.

02 Walk-in Culture Dominates

67.3% of attendees registered on-site on event day. Pre-registration reached only 655 people, indicating a need for stronger early-bird campaigns.

04 Cross-Faculty Reach Achieved

Other 30 + departments compared to accounting department had the highest turn up for the event overall with 57.5% of total attendance for both days (This indicates that accounting student does not have right attitude towards the event).

06 NUASA Channels Most Effective

NUASA announcements drove the highest pre-registration signups (255). Peer referrals came second, showing the power of community-driven outreach.

Recommendations for IAS 10.0

Data-driven actions to improve the next edition

01

Launch pre-registration 3+ weeks earlier

Only 32.7% pre-registered. An earlier, more sustained campaign could flip the ratio and reduce desk pressure on event day.

02

Reinforce Day 1 attendance as mandatory

737 people attended Day 2 only, missing cert eligibility. Clearer communication before the event will improve Day 1 turnout.

03

Double down on NUASA & peer channels

These were the top two pre-reg channels. A structured ambassador programme across departments could dramatically increase pre-event reach.

04

Build a 100L-focused onboarding strategy

First-year students showed the highest engagement. Targeting them through faculty orientations could make IAS a must-attend event from Year 1.

05

Improve Accounting Student Engagement

Investigate the underlying reasons for the low turnout among Accounting students through surveys or feedback sessions, then implement tailored interventions such as improved communication and early event publicity

06

Plan infrastructure for 3,000+ registrations

Growth from IAS 9.0 suggests the next edition will exceed 3,000 signups. The registration system and database must be scaled accordingly while also providing for post event feedbacks on improvement

Thank You
